## 2 X 2 M AND 2 X 3 M HAY RACKS WITH OPTIONAL 3-POINT TRANSPORT SYSTEM

|               |   |            |
|---------------|---|------------|
| <b>RA0812</b> | <b>"4 FACES" P.T.F. type without 3 points - Available in packs of 4</b> | 332 kg     |
| <b>RA0970</b> | <b>3 points, complete, hay rack</b>                                     | 28 kg      |
| <b>RA9076</b> | <b>"4 FACES" hay rack fork passage</b>                                  | pair 18 kg |

The "4 FACES" and "BIG BALL" hay racks are now available with an optional transport system.

The hay rack is packaged without a transport system; you can order your preferred system.

For example:

- 1 x RA0812 "4 FACES" P.T.F. type hay rack without 3 points.
- 1 x RA0970 3 points, complete above and below for 3-point transport to tractor rear.
- 1 x RA9076 "4 FACES" hay rack fork passage for transport by fork under the hay rack.

For 3-point transport, order the relevant option.

These products can be found on pages 92 to 95 of our T38 catalogue.

## P.T.F. HAY RACK WITH OPTIONAL 3-POINT TRANSPORT SYSTEM

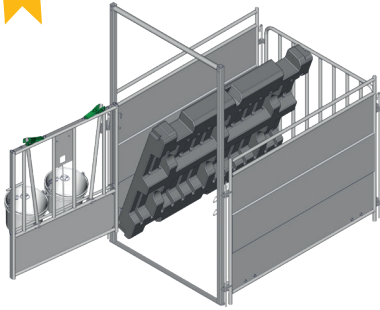

The popular P.T.F. JOURDAIN hay rack is now available without 3-point transport, which can be added as an option. It is mounted without bolts and can be transported by tractor. Once the 3-point lead has been removed, the hay rack no longer has a rough feel, especially for horses.

|               |   |        |
|---------------|---|--------|
| <b>RA0906</b> | <b>P.T.F. - Available in packs of 4</b> | 193 kg |
| <b>RA0918</b> | <b>3 points P.T.F. hay rack option</b>  | 8.5 kg |

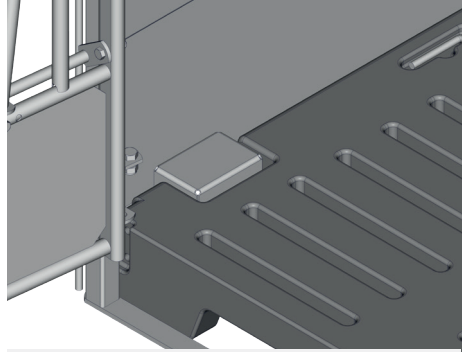

# METAL WALL WITH SLAT FITTINGS

Metal wall with slat fittings

Slat fittings detail

You are familiar with the green HDPE wall that enables you to articulate slats. JOURDAIN now has a more economical metal version.

**VE2540** Metal wall with slat fittings 29 kg

The "Made in France" logo is a statement that manufacturers or distributors may display, under certain conditions, on their products to certify that they are of French origin if they:

- derive a significant portion of their value from one or more manufacturing stages located in France;
- have undergone their last substantial transformation in France (source: [www.economie.gouv.fr](http://www.economie.gouv.fr)).

For JOURDAIN, this definition of "Made in France" is insufficient, which is why we have created our own logo which involves a much greater commitment:

- the French manufacture of our products guarantees full control over the design, manufacture, quality control and logistics in-house at our Escrennes site (Loiret, France).
